Quiet-Vent Ducting Buyers Guide
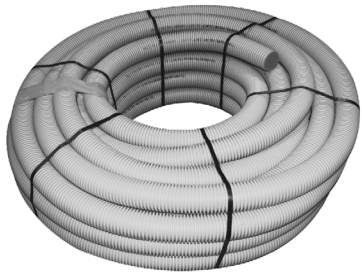

Quiet-Vent

GUIDE INLCUDES:

DUCTING

75mm Radial Ducting

75mm Antibacterial Radial Pipe

- Antibacterial inner layer with 99% efficiency
- High flexibility allowing easy routing of
- ventilation ducts
- The smooth inner surface minimizes flow resistance and reduces the deposition of dirt
- Outstanding noise reduction
- double-walled pipe structure

Part Number: QV75P-FS

75mm Plenum

- 2 x metal clips to secure 75mm radial ducting
- 1 x 75mm blanking cap
- 1 x 125mm blanking cap
- 2 x 75mm rubber sealing rings

Part Number: QV75-PLEN

125mm to 2x75mm Straight Connector/Plenum

- 2 x 75mm connections to 125mm
- Durable ABS material
- Failure-free operation for many years
- Ensures air tightness for an entire system
- Installation possible on most surfaces
- Install on floor/wall/ceiling

Part Number: QVPLEN75AW

75mm 90 degree bend

- Part of QV semi rigid radial ducting system
- Universal fitting

Part Number: QVCON90F

75mm Straight Connector

- Inline straight connector suitable for use in 75mm Semi Rigid Radial Ducting Systems

Part Number: QVCONSF

75mm Sealing Ring (Case of 10)

- Sealing rings for 75mm round ducting

Part Number: QV-75SR

75mm to 125mm Straight Adaptor

- Flexible rubber connector
- Allows for reduction in size between 2 connections
- Supplied with 2 clips

Part Number: QV75125ADP

75 mm Radial Pipe Cutter

- A tool designed specifically for cutting radial ducting

Part Number: VNK75R

75mm Radial Pipe Clips

- Designed to securely fix around radial duct
- Keeps duct off building fabric
- Reduces noise transmission

Part Number: QV75PC

75mm Blanking Caps

- Blanking cap for 75mm round spigots. Suitable for use in distribution / manifold boxes with 75mm spigots.

Part Number: QV-BLANKCAP

75mm Radial Manifolds

6 Point Top Entry Distribution Box 150mm Spigot

- Stainless steel 6-point distribution box
- 6 x 75mm spigots
- 1 x 150mm top entry spigot with sealing ring
- Supplied with 2 blanking caps & 6 pipe clips
- Dimensions: 600mm x 200mm x 90mm
- Requires Sealing Rings for Ports

Part Number: QV75-06150TE

10 point Top Entry Distribution Box 150mm Spigot

- Stainless steel 10-point distribution box
- 10 x 75mm spigots
- 1 x 150mm top entry spigot with sealing ring
- Supplied with 3 blanking caps & 10 Pipe clips
- Dimensions: 600mm x 250mm x 90mm
- Requires Sealing Rings for Ports

Part Number: QV75-10150TE

15 Point Rear Entry Distribution Box 180mm Spigot

- Stainless steel 15-point distribution box
- 15 x 75mm spigots
- 1 x 180mm rear entry spigot with sealing ring
- Supplied with 3 blanking caps & 15 Pipe clips
- Dimensions: 500mm x 350mm x 300mm
- Requires Sealing Rings for Ports

Part Number: QV75-15180RE

10 Point Rear Entry Distribution Box 150mm Spigot

- Stainless steel 10-point distribution box
- 10 x 75mm spigots
- 1 x 150mm rear entry spigot with sealing ring
- Supplied with 3 blanking caps & 10 Pipe clips
- Dimensions: 500mm x 250mm x 200mm
- Requires Sealing Rings for Ports

Part Number: QV75-10150RE

4 Point Top Entry Adjustable Distribution Box 125mm Spigot

- Stainless steel 4-point distribution box
- 4 x 75mm spigots
- 1 x 125mm top entry spigot with sealing ring
- Supplied with 2 blanking caps & 4 Pipe clips
- Dimensions: 400mm x 220mm x 90mm
- Adjustable Spigot
- Requires Sealing Rings for Ports

Part Number: QV75-04125MTE

75mm 10 Point Adjustable Top Entry Distribution Box150mm Spigot

- Stainless steel 10-point distribution box
- 10 x 75mm spigots
- 1 x 150mm top entry spigot with sealing ring
- Supplied with 3 blanking caps & 10 Pipe clips
- Dimensions: 1000mm x 250mm x 90mm
- Adjustable Spigot
- Requires Sealing Rings for Ports

Part Number: QV75-10150MTE

75mm 6 Point Adjustable Top Entry Distribution Box 125mm Spigot

- Stainless steel 6-point distribution box
- 6 x 75mm spigots
- 1 x 125mm top entry spigot with sealing ring
- Supplied with 2 blanking caps & 6 Pipe clips
- Dimensions: 600mm x 220mm x 90mm
- Adjustable Spigot
- Requires Sealing Rings for Ports

Part Number: **QV75-06125MTE**

75mm 12 Point Adjustable Top Entry Distribution box 150mm spigot

- Stainless steel 12-point distribution box
- 12 x 75mm spigots
- 1 x 150mm top entry spigot with sealing ring
- Supplied with 3 blanking caps & 12 Pipe clips
- Dimensions: 1200mm x 300mm x 90mm
- Adjustable Spigot
- Requires Sealing Rings for Ports

Part Number: **QV75-12150MTE**

6 Point Top Entry Pro Manifold
150mm Spigot

- Stainless steel 6-point distribution box
- 6 x 75mm spigots
- 1 x 150mm top entry spigot with seal
- Supplied with 2 blanking caps & Pipe Cutter
- Dimensions: 550mm x 240mm x 90mm
- Accoustic Lining
- No sealing rings required
- Airtight welded construction
- Easy Push & Click Installation
- Stainless Steel

Part Number: QV75-PRO-06150TE

10 Point Top Entry Pro Manifold
150mm Spigot

- Stainless steel 6-point distribution box
- 10 x 75mm spigots
- 1 x 150mm top entry spigot with seal
- Supplied with 3 blanking caps & Pipe Cutter
- Dimensions: 600mm x 240mm x 90mm
- Accoustic Lining
- No sealing rings required
- Airtight welded construction
- Easy Push & Click Installation
- Stainless Steel

Part Number: QV75-PRO-10150TE

10 Point Rear Entry Pro Manifold
150mm Spigot

- Stainless steel 10-point distribution box
- 10 x 75mm spigots
- 1 x 150mm top entry spigot with seal
- Supplied with 3 blanking caps & Pipe Cutter
- Dimensions: 460mm x 310mm x 180mm
- Accoustic Lining
- No sealing rings required
- Airtight welded construction
- Easy Push & Click Installation
- Stainless Steel

Part Number: QV75-PRO-10150RE

15 Point Rear Entry Pro Manifold
180mm Spigot

- Stainless steel 15-point distribution box
- 15 x 75mm spigots
- 1 x 180mm rear entry spigot with seal
- Supplied with 3 blanking caps & Pipe Cutter
- Dimensions: 460mm x 400mm x 270mm
- Accoustic Lining
- No sealing rings required
- Airtight welded construction
- Easy Push & Click Installation
- Stainless Steel

Part Number: QV75-PRO-15180RE
